**ADS recommends that all suspension components be installed by a qualified professional.**

**Installation notes:**

- ADS front control arms utilize acetal bushings. Acetal is self-lubricating and does not need to be greased.
- Control arm bolts should be fully tightened with the vehicle at ride height under its own weight.
- The control arm cross bolt torques to **85ft-lbs**
- Leave the OEM ABS line bracket attached to the line, and secure the bracket to the ADS control arm with the included M6 Nuts
- ADS ball joint nut torques to **85ft-lbs**
- Recheck all fastener torque after 50 miles
